

INTREC-INDEPTH Training & Research Centres of Excellence

Block-2

Week 1: Qualitative research methods

Introduction workshop

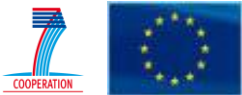

Learning objectives week 1

- To gain insight in what qualitative research can contribute in the development of evidence on Social Determinants of Health (SDH).
- To acquire basic knowledge and know how in conducting a qualitative study
- To write your own plan for qualitative research
Formulating qualitative research questions

Aims session 1

- To get to know each other
- To get an overview of program week 1 and ways of work

Who your teachers are?

- Dr Klas- Goran Sahlen, University of Umea, Sweden

- Dr Joke Haafkens, University of Amsterdam, the Netherlands

Who your fellow students from Asia are?

INTREC Block 2
Yogyakarta workshop April 2014 Participants

Uddhavi - India

Bharat - India

Anamitra - India

Rebecca - Papua
New Guinea

Chi - Vietnam

Thoa - Vietnam

Citra - Indonesia

Ifta - Indonesia

Nandy - Indonesia

Dwidjo - Indonesia

Likke - Indonesia

Supri - Indonesia

Puti - Indonesia

Faisal - Indonesia

Ktut - Indonesia

Andri - Indonesia

Who are you?

David Obor, Kenya

Fikiri Chisonjela, Tan

**GODFREY MUGA,
Kenya**

Semaw Abera, Eth

Angela Kimweri, Tan

Muluken Turago, Eth

Janet Oyieko, Kenya

Ryan Wagner, S A

**Chodziwadziwa
Kabudula, S A**

Luke Tina, Kenya

Sally Mtenga, Tan

**Fasil Woldeselassie,
Eth**

Richard Nagai, Ghana

**Patricia Elung'ata,
Kenya**

Evodius Kuringe, Tan

Getting to know each other: exercise

- Professional background
- Research areas of interest, particularly in SDH
- Something that makes you unique

Expected outcome

- Health economist / Nurse
- Elderly perspective
- Part time farmer

**Klas Göran Sahlen,
Sweden**

- Health sciences/research psychology
- CVD prevention/ occupational health
- Loves hiking in the mountains

**Joke Haafkens,
Netherlands**

Who you are?

Overview week 1

RUPRECHT-KARLS-
UNIVERSITÄT
HEIDELBERG

Universitas Gadjah Mada
Gadjah Mada University

Qualitative research??

- Primarily **exploratory** research.
- It is used to gain an understanding of **underlying** reasons, opinions, and motivations/patterns.
- It provides insights **to help develop hypotheses for quantitative research or to explain outcomes**
- Common qualitative data collection methods are **individual interviews, focus groups discussions or participation/observations.**
- The sample size is typically **small**

Course outline

- Day 1 - research design; research questions; sampling
- Day 2 - ethics; preparing and conducting interviews
- Day 3 - preparing and conducting focus groups; preparing observation studies
- Day 4 - conducting observation in the field (Madiman Market) ; analyzing qualitative data
- Day 5 - analyzing qualitative data; quality assessment qualitative research papers, reporting

Ways of work

- Mix of lectures, group/individual work, presentations of group/individual work
- Dropbox

Literature, see syllabus and dropbox qualitative research

About methods:

- See dropbox research methods

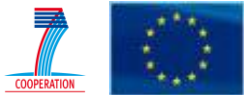

Additional literature SDH

- See general literature

Evaluation

- Evaluation block 1 on-line course
- Evaluation block 2

- Photo session
